Integrate the California MTSS Framework In Your District With Panorama

The path to equitably meeting students' needs across academics, behavior, social-emotional learning, and well-being is often full of roadblocks. Incomplete or siloed data, time-intensive manual reporting, lack of consistency district-wide, and difficulty tracking the efficacy of supports are huge challenges to implementing MTSS.

Discover a better way with Panorama. Our intuitive, scalable, data-driven tools align with every domain of the California MTSS Framework to support the whole child across every tier. Panorama unifies your student data from multiple sources, giving you actionable insights in just minutes with collaborative tools that make it easy to follow your MTSS plan. With Panorama, you'll simplify your MTSS implementation and empower the educators who know your students best. Keep reading to learn how Panorama aligns to the domains and features of the [California MTSS Framework](#).

Panorama Alignment With the CA MTSS Whole Child Domain

Inclusive Academic Instruction Features

A system-wide, multi-tiered continuum of research-based practices

Academics supported with data-based decision making

CA MTSS Feature:

A comprehensive assessment system

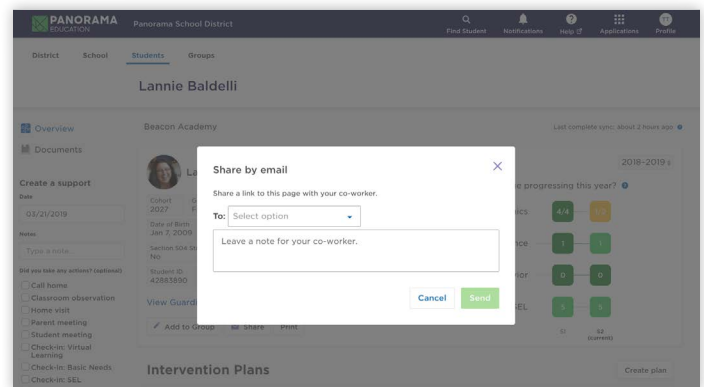

[Panorama Student Success](#) syncs nightly with popular California assessments and progress monitoring systems so you can power your decisions with the most up-to-date information. Panorama is compatible with the CAASPP suite, STAR, NWEA MAP, aimsweb, DIBELS, i-Ready, and more.

CA MTSS Feature:

Create and utilize teams

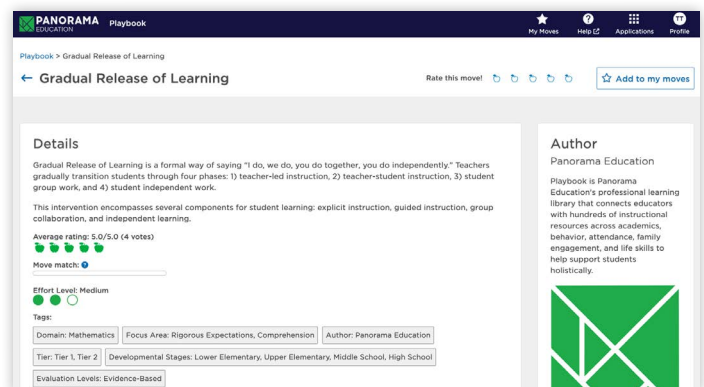

Built-in collaboration features give you the ability to share interventions, groups, and profiles among educators who support the same students.

CA MTSS Feature:

Evidence-based practices for universal, supplemental, and intensified supports

With Panorama, you can quickly plan and implement interventions at each tier, ensuring students get the support they need, when they need it. You'll easily surface recommendations from your district menu or the [Panorama Playbook](#), which features 700+ evidence- and research-based strategies.

"MTSS is a culture of supporting all students. It doesn't matter if the student has a label. If a student needs a support or a service, we need to deliver it as quickly as possible. Having Panorama is the first time we've had concrete data in order to provide social-emotional supports for all students."

– Jessica Warren, Teacher on Special Assignment for MTSS, Val Verde Unified (CA)

Panorama Alignment With the CA MTSS Whole Child Domain

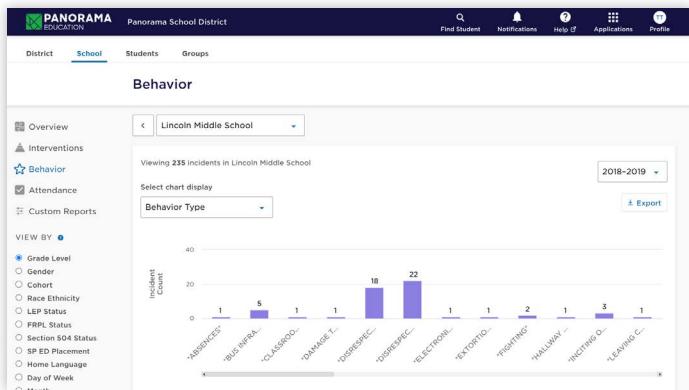

Inclusive Behavior Instruction Features

A system-wide, multi-tiered continuum of research-based practices

Behavior supported with data-based decision making

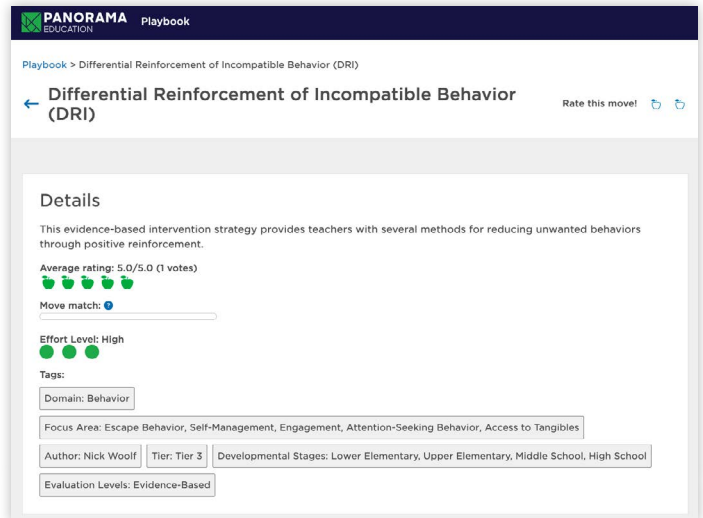

CA MTSS Feature: Integrate behavioral supports

With Panorama Student Success and Positive Behavior, you'll have built-in behavior analytics, giving you visibility into the Big 5 of incidents (who, what, where, when, and how often) to empower data-driven decisions about your supports. And with Panorama Behavior Boost, educators will grow their capacity to implement research-based Tier 1 universal practices such as [behavior-specific praise](#).

CA MTSS Feature: Evidence-based practices for universal, supplemental, and intensified supports

With research-backed Panorama Surveys, you'll gain school climate insights to help you determine the need for universal and intensified behavior supports. With Panorama Playbook, your educators can quickly identify and implement research- and evidence-based interventions to respond to those needs.

“In our past work looking at suspensions and office referrals, we focused on ensuring that students knew the rules and how to behave. Now, we’re looking at what’s missing in our environments that we need to build into our classrooms and schools.”

– Colleen Williams, Director, Student Wellness & Support Services, San Bernardino City Unified School District (CA)

Panorama Alignment With the CA MTSS Whole Child Domain

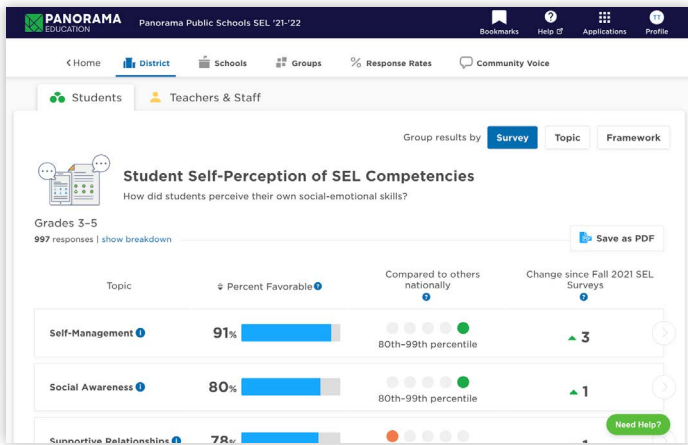

Inclusive SEL Instruction and Mental Health Support Features

A system-wide, multi-tiered continuum of research-based practices

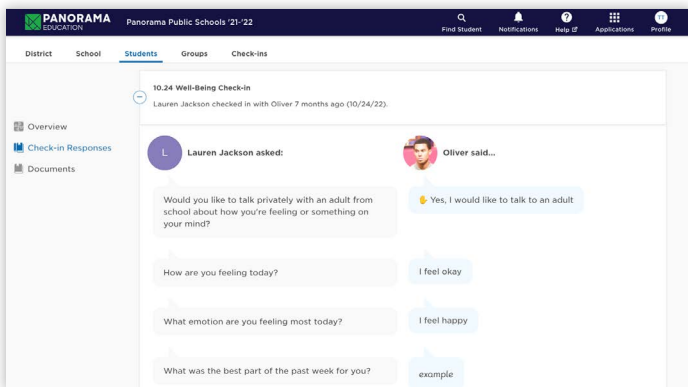

SEL supported with data-based decision making

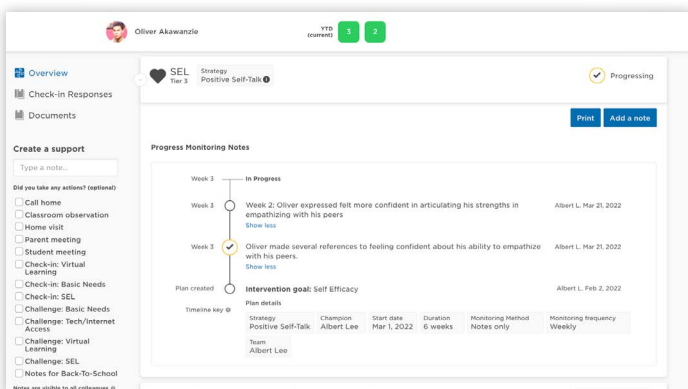

CA MTSS Feature: A comprehensive assessment system

With [Panorama for SEL](#), you get a research-backed assessment tool that you can customize by selecting 4-7 CASEL-aligned areas of focus so you can measure what matters most in your district against national benchmarks. And through our partnership with California Office to Reform Education (CORE) districts, you also have the option to measure against CA-specific benchmarks.

CA MTSS Feature: Evidence-based practices for universal, supplemental, and intensified supports

Quick [Student Check-Ins](#) offer a strategy at the universal tier to gain real-time insights into student well-being. With the Panorama Playbook, you'll have a library of evidence-based SEL interventions to help educators implement the most relevant supplemental and intensified supports.

Once an intervention is underway, teachers can easily input and visualize quantitative and qualitative results with first-of-its-kind [SEL progress monitoring in Panorama's intervention management dashboard](#). This dashboard makes it easy to see if a student has met their goal and can be exited from the intervention, is making progress but should continue, or is not on track and may need a different strategy.

"We instantly started sharing our information with each other... We looked at where we're at in terms of the district average, and then we started having conversations about what's happening at your school site that's promoting success.... We're able to have very productive, honest conversations."

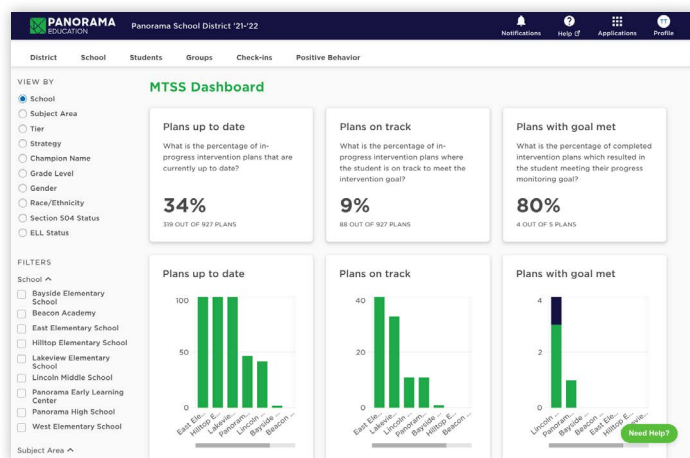

—Brian Wulf, Former Principal, Robinson Elementary (CA)

Panorama Alignment With the CA MTSS Administrative Leadership Domain

Strong and Engaged Site Leadership Features

CA MTSS Feature: Use data to guide decisions

With district, school, and student dashboards to monitor your MTSS, you'll empower data-informed decision-making so you can allocate resources more effectively. Reports covering academics, attendance, behavior, and SEL put insights at your fingertips so you can tailor interventions and monitor their implementation, fidelity, and efficacy.

CA MTSS Feature: Development of a vision

With [Panorama Strategic Advising](#), you'll translate your community data and receive tailored recommendations to develop your MTSS vision. With your advisor, you'll prioritize initiatives and determine the most impactful strategies for your community.

Strong Educator Support System Features

CA MTSS Feature: Access to instructional coaching

[Professional development workshops and advising](#) will help your educators get the most out of Panorama tools. In these sessions, educators learn how to analyze student data, identify opportunities within their roles, enhance their student support workflows, and sustain meaningful change.

CA MTSS Feature: Seek input from teachers

[The Panorama Teacher and Staff Survey](#) sparks productive conversations between teachers and school leaders about well-being, professional learning, cultural competency, leadership, school climate, and more. This data helps leaders prioritize staff support, deliver targeted PD, and create a more positive working environment for all.

"We've worked with Panorama for the last seven years to measure climate, culture, and social-emotional learning from the perspectives of nearly 100,000 students, teachers, staff, and families. Panorama data is a key piece of our accountability system and vision for college and career readiness."

—Dr. Ritu Khanna, Chief of Research, Planning, and Assessment at San Francisco Unified School District (CA)

Panorama Alignment With the CA MTSS Integrated Supports Domain

Organizational Structure Features

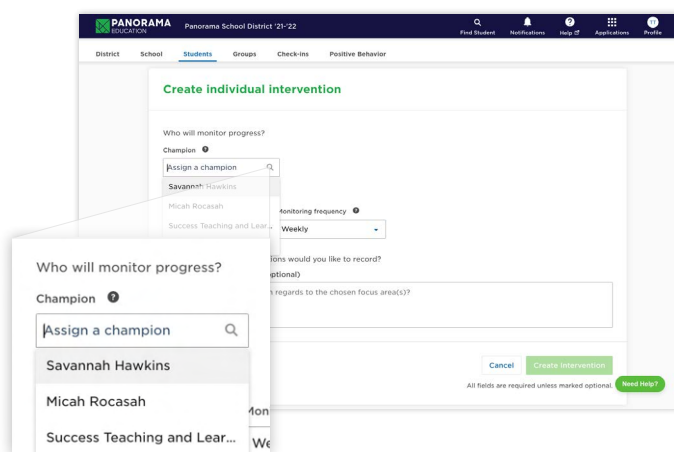

Proud member of the Student Data Privacy Consortium

CA MTSS Feature: Identify who has access

With the Panorama suite of tools, administrators can set customized user roles and permissions to [ensure student data is secure and protected](#) while enabling seamless collaboration between educators and support staff to make data-informed decisions.

CA MTSS Feature: Use collaborative instruction among peers

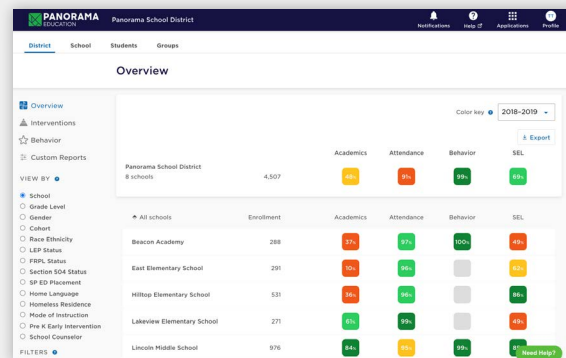

The Panorama tools for the California MTSS framework offer consistency across support and interventions, allowing educators and support staff to collaborate more effectively through shared language and practices. Having a mutual understanding is critical for a coordinated approach to providing a continuum of support for all students.

Strong and Positive School Culture Features

CA MTSS Feature: Demonstrate equitable, culturally relevant, and responsive practices that respect diversity

Panorama will empower your leaders and educators to promote equitable, culturally responsive practices with tools like our [Equity and Inclusion Survey](#). With dashboard demographic filters, you'll analyze data through an equity lens to ensure you meet each student's unique needs. This feature allows for developing responsive and targeted supports that respect diversity and promote equity in your district and schools.

“For us, Panorama has been everything.... We knew we wanted to narrow our focus on developing a positive and engaging climate and culture for not just our students, but for our staff, families, and communities. When we pull our Panorama data and see our continued growth everywhere, it’s amazing.... It makes us see: Where are we growing, and what do we need? Then, we can put specific actions in play to support those needs.”

–Lizzy Hartman, Principal at Indio Middle School (CA)

Panorama Alignment With the CA Family and Community Engagement Domain

Trusting Family and Community Partnerships Features

CA MTSS Feature: Engage with students and families

With Panorama, you'll [engage students and families with research-backed surveys](#) that capture student feedback on school experiences and measure family perceptions. These insights will inform your engagement efforts and help you make data-driven decisions on how to serve students and families best. And by printing and sharing student profiles and intervention plans with families, you'll develop strong partnerships between home and school.

CA MTSS Feature: Obtain input and feedback

With Panorama surveys, like the Family-School Relationships Survey, you'll [support the development of your local control and accountability plan \(LCAP\)](#) and drive your strategy around school climate and culture. With these insights, you'll engage families more effectively and develop their capacity to contribute to their child's learning. Measuring progress with these surveys will help you address State Priority 3 for parental involvement and family engagement.

CA MTSS Feature: Engage with the community

The Panorama Communication Toolkit provides districts with resources to communicate effectively with families and guardians. It includes sample letters, best practices, and tips for improving response rates, and all resources are available in both English and Spanish to ensure accessibility for all families.

“Our partnership with Panorama has been great and always well-supported. Our questions and our next steps have always been very collaboratively done.”

–Jim Feffer, Director of Assessment and Data Analysis, Palm Springs Unified School District (CA)

Panorama Alignment With the CA Inclusive Policy Structure and Practice Domain

Strong LEA / School Relationship Features

CA MTSS Feature: Identify and remove barriers

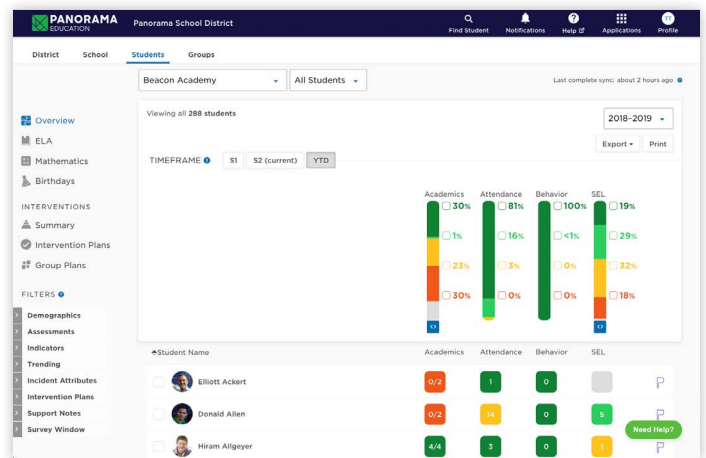

With Panorama, you have a dedicated support team to assist with your MTSS implementation, rollout, and professional development scoping.

CA MTSS Feature: District-level professional learning

[Strategic advising and role-specific workshops](#) will help your leaders, support teams, and educators learn to use data inquiry to target tiered supports and take action.

CA MTSS Feature: Regularly communicate outcomes

Panorama allows you to share interventions, groups, and student profiles across educators directly within the platform. You can share insights with your community by printing survey results and highlighting data points on your district's website.

LEA Policy Framework Features

CA MTSS Feature: Review data, including student outcome, implementation, and capacity data

With Panorama, it's easy to review student data, so you'll always have an eye on outcomes. And with custom reporting, you can link and monitor various initiatives and indicators to power your decision-making with the most relevant data.

CA MTSS Feature: Expand practices into other schools

Panorama makes it easy to share interventions across your district. You can also compare schools and quickly understand if they have met, exceeded, or have yet to reach your MTSS goals. And you can track progress across your district, see where you need more resources, and identify strategies to implement more broadly.

About Panorama Education

As the leading solution for MTSS, Panorama Education partners with K–12 schools and districts to collect and analyze data about academics, behavior, social-emotional learning, and more. With research-backed surveys, actionable data reports, intervention tools, and progress monitoring, Panorama helps districts and schools act on data and improve student outcomes. Panorama supports over 15 million students in 25,000 schools nationwide and 200 districts in California.
