

Playbook

by Panorama Education

Playbook helps educators take action on Panorama data with hundreds of intervention strategies and resources to support students across academics, behavior, attendance, and life skills.

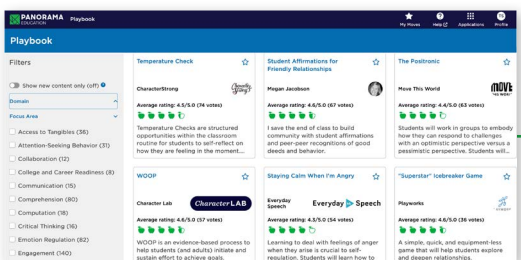

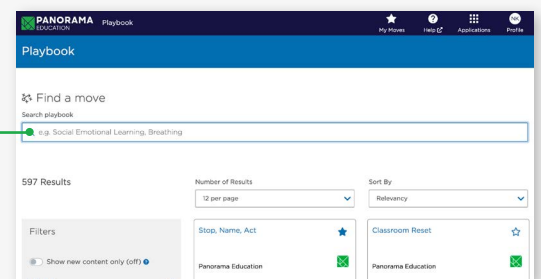

Designed for educators, by educators, Playbook helps answer the question: “What do I do next?”

Explore **700+** research-backed and evidence-based strategies spanning all three MTSS tiers. Access activities, lesson plans, and interventions to implement in the classroom.

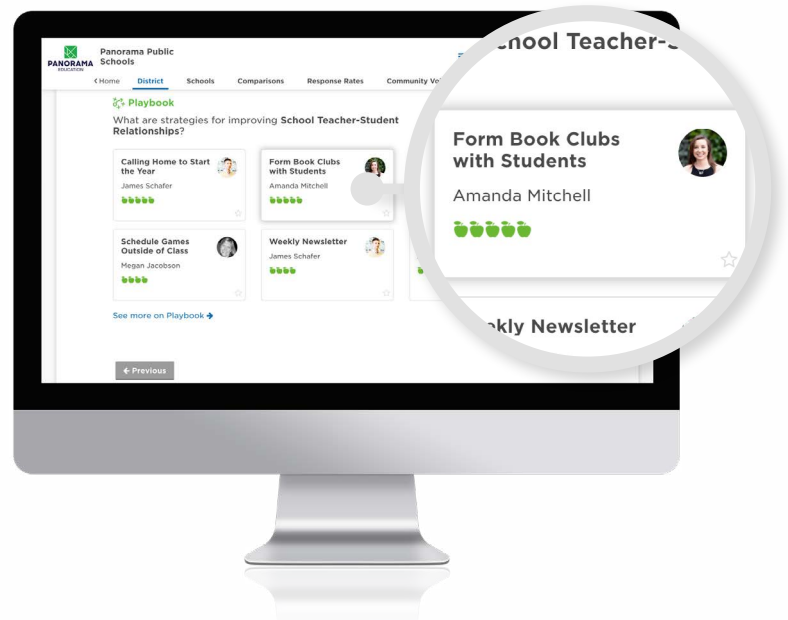

Use the **search bar** to easily browse the entire Playbook library of strategies to quickly find the content most relevant to your students' needs.

Filter and **save** strategies by tier, survey topic, intervention focus area, developmental stage, framework alignment, curriculum provider, and several other categories.

Move From Understanding the Data to Taking Action

Playbook makes it easy to go from assessment to action. Move seamlessly from reviewing your data to addressing challenges with built-in intervention recommendations from the extensive Playbook library.

“ What I love about the Panorama Playbook is how accessible it is for teachers and leaders. All educators can feel empowered to share effective and evidence-based interventions that are aligned with survey data results. Panorama has also partnered with several leading resource providers, including Digital Promise, Attendance Works, and Conscious Discipline. When you use Panorama’s Playbook, you know that the instruction and supports that you provide will have a positive impact on students’ lives. ”
