

Take Data-Driven Action to Teach Employability Skills

Finding and implementing developmentally-appropriate, research-based resources aligned to employability skills and workforce readiness frameworks is a time-intensive and costly challenge for educators. Playbook increases access to high-quality, easy-to-implement, and engaging activities to help teach employability skills.

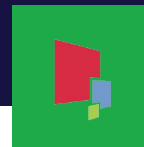

Playbook includes a library of 800+ instructional resources across a variety of life skills and all MTSS tiers.

Activities utilize role-playing, group discussions, project-based learning, and explicit instruction.

Facilitate research-based strategies for developing students' employability skills.

Access resources from leading programs: Digital Promise, Character Strong, and Growing Leaders.
