

Panorama for Safer Communities

Prevent and respond to the barriers impacting school climate at the individual and systemic levels

We at Panorama are committed to supporting districts and schools in establishing safer and healthier learning environments and school communities. Our award winning, evidence based tools provide support for schools and districts to design and enhance initiatives that will promote safer, more inclusive, and positive school environments for all students, educators, and school staff.

The **Bipartisan Safer Communities Act (BSCA)**, passed in 2022, provides funding through the **Stronger Connections Grant** Program in recognition of the fact that local evidence-based school safety and climate plans depends on meaningful engagement between school leaders, students, parents, families, and community members, and strong relationships between students and adults. Panorama is here to support your needs.

Research Backed 360 Surveys

Promote positive school climate by collecting valid and reliable feedback about what matters most — from belonging and teacher-student relationships to engagement and school safety.

Student:

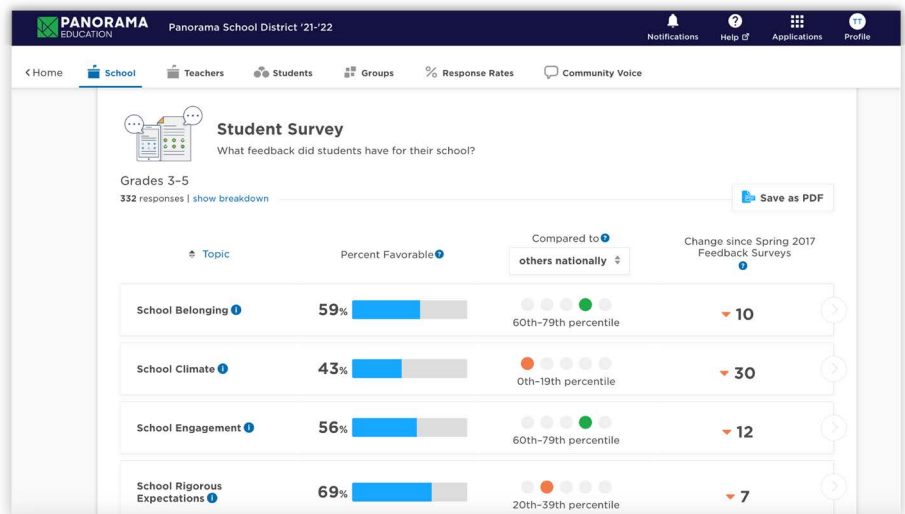

- Supportive Relationships
- Positive or Challenging Feelings
- Emotion Regulation
- School Climate

Teacher:

- Well-being
- School Climate

Family & Community:

- Family Support
- School Safety
- School Climate

Ogden High School increased 80 students' favorable sense of belonging and graduation rates from 76% to 95%. [Read more here.](#)

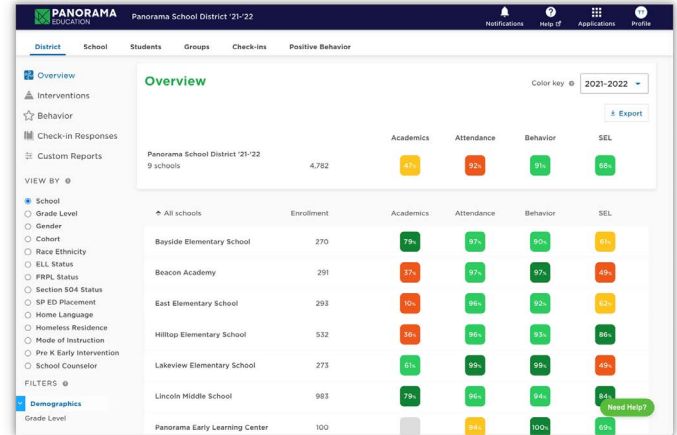

Student Success

With our all in one Student Success platform, you have the ability to strengthen MTSS/RTI and PBIS with unified academic, behavior, and SEL data for each student so you can streamline interventions, provide direct student support, and reinforce positive behavior.

Take academics, tiered supports, and school safety to the next level by:

- Streamlining MTSS, RTI, and PBIS by monitoring student, school, and district progress to ensure consistent support across every tier.
- Monitoring student insights and needs by tracking Tier 1, 2, or 3 behavior interventions towards goals

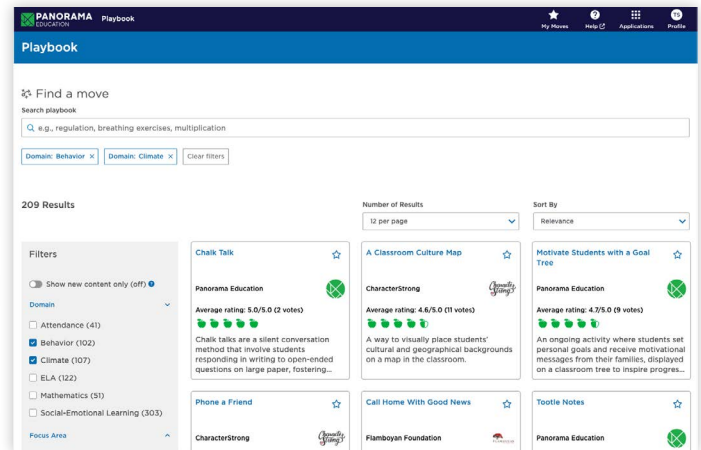

Playbook

Playbook connects educators with 700+ strategies across school climate, mental well-being, positive behavior, and life skills to support educators with establishing safe, healthy, supportive learning environments. Within Panorama’s survey platform, educators receive data-driven recommendations for Playbook strategies aligned to student needs based on survey responses—making it seamless to identify next steps and take informed action.

Playbook includes hundreds of interactive lesson plans and activities focused on skill- building in areas such as:

- Anti-Bullying
- Self-Management
- Conflict Resolution
- Collaboration
