

New for Districts Using Panorama for Surveys and SEL

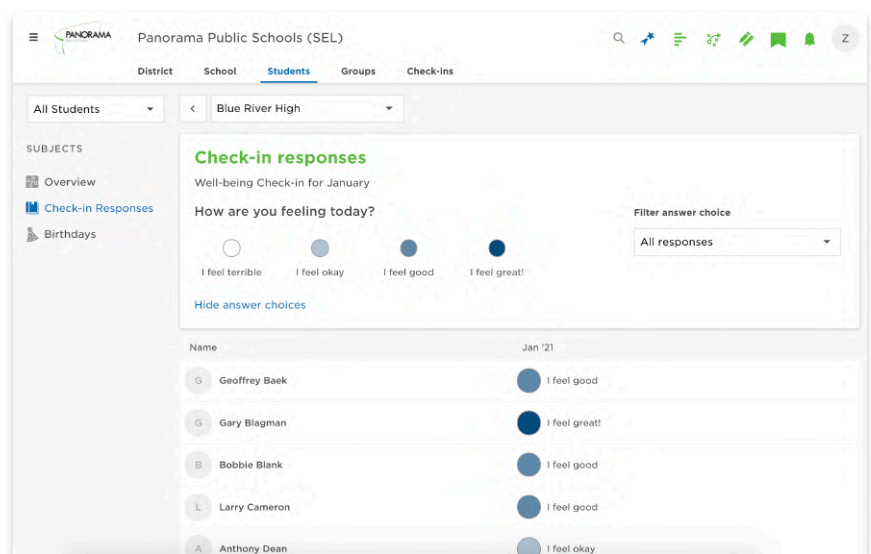

Quick, Flexible Student Check-Ins

How are our students doing? Who needs our support now?

This year, **student voice** is even more important for fostering a safe, supportive environment. Due to the layered impact of the pandemic and trauma related to systemic racism, understanding how students are feeling is top of mind for educators. But with the majority of districts still operating in a hybrid or remote learning model, educators are struggling to understand what supports their students need.

That's why [Panorama Education](#) is bringing **student check-ins** to districts and schools. Using check-ins school and district leaders will be able to **collect quick perception data from students to deliver frequent, rapid supports throughout the year.**

Check-ins enable **caring adults** to ask students how they're doing and respond quickly to lend support where needed.

Easily create and send check-ins to students

Select questions from an item bank supplied by Panorama. Send the check-ins to all students or a subset of students. It's simple to choose which students to survey using live, daily-updated rosters in Panorama—no manual uploads needed.

Instantly view results and explore trends

Results appear in the Panorama platform right away so you can take timely action to support students. Explore the data at the question and student level, to investigate overall trends and better understand the unique experiences of students now.

Create action plans and monitor progress

Use Panorama's [multi-tiered system of supports \(MTSS\) tools](#) to document support notes and track actions taken in response to survey data. Assign, manage, and progress monitor interventions for specific students and student groups—all in one platform.

I'm interested! How do I learn more?

Check-ins are now available. If you are interested in learning more about Panorama's check-in tools, please fill out [this form](#), or email contact@panoramaed.com.
