Our speakers today:

Beth Bourque

Assistant Director of Student Services
North Kitsap School District (WA)

Karen Longoria

Teacher
IDEA Public Schools (TX)

Today's agenda:

- Real examples of AI enabling personalized feedback and student support
- How districts maintain rigor and fidelity while expanding capacity
- The results: stronger student engagement and more targeted interventions

Insights + real district stories:

IDEA Public Schools (TX):

Students made incredible gains in AP English Language

North Kitsap School District (WA):

Educators are lightening administrative loads while deepening learning.

Poll time!

When you think about using AI for student support, what feels like the biggest opportunity for your district right now?

- Giving students more personalized feedback and support
- Saving educators time while maintaining quality instruction
- Identifying and responding to student needs faster
- Extending the reach of great teaching across more classrooms

Roundtable Discussion

The Panorama Platform

Student Success

Translate insights into effective student supports to improve literacy, academics, attendance, and behavior.

Surveys & Engagement

Drive school improvement with vital feedback from your community, students, and staff.

Panorama Pathways

Ensure students are ready for college, career, and life with an on-time graduation and CTE program tracking solution.

Life Skills

Build students' mindsets and skills with assessments, check-ins, and interventions.

Panorama AI: Solara

Make student support easier with secure AI that's customizable to your district's goals and practices.

Meet Panorama Solara: Your Customizable, Districtwide AI Platform

Securely connected to your student data. Recommendations personalized to every learner. Data never leaves the district's walled garden.
